A MAD RUSH FOR LAND.

A Lincoln County Man Takes Part and Tells How It Was Done.

To the Editor Interior Journal.

OKLAHOMA, Sep. 26.—Perhaps some of your readers would like to hear of the wonderful country that has just been opened to Oklahoma and the great race into that country. It lies just east of Oklahoma proper and is known as the Klowa, Sac and Potawatonia reservations. These lands were declared open for settlement Sept. 22. Many of the readers were in the Oklahoma rush they can form some idea of how exciting this race was, only this was more exciting and there were more people at the line to make the race. It is claimed that over 100,000 people invaded the promised land. The weather was beautiful and the elements propitious to gather out a large crowd. In point of interest, scenes of excitement, the desperate struggle to secure homes in city and country, the desperate chances taken to life and limb and the great crowd which took part in the race, it will go history as unexampled.

The crowd began to gather on the lines days before the opening preparing horses and wagons and caravans of all sorts. As the hour of noon, Tuesday, drew near the excitement intensified, until it became almost uncontrollable, and like greyhounds waiting to be unleashed, the racers with every nerve strained to its utmost tension, awaited the word of command. When the time expired the captain ordered the soldiers to give back and then fired his revolver for the command to go. As the bullet left the muzzle of the pistol, so did the horsemen and those in wagons break to a mad rush. It was indeed a mad, mad rush, one not to be witnessed more than once in a life time and one which set every nerve to throbbing and every drop of blood to tingling. It was every man for himself and the devil take the hindmost. They stopped for nothing, the luggages and wagons that were upset with women and children under them did not attract any attention and stayed not the rush for a second, but they kept putting their spurs and whips to the horses and would run over any one that got in their way. Indians gathered on the lines and seemed to enjoy the race, and as we passed by they greeted us with an old-time war whoop, but they were soon left far behind.

When we arrived at the town site, which was to be the county seat, we were met there by a troop of cavalrymen, which brought us to a halt, but they had to shoot one horse from under a man in order to check him from going over the line, and stuck a bayonet in another one. The crowd had to dismount and camp there until the next day at 12 o'clock, when trooper Steele declared the town site ready for settlement. There were between 5,000 and 6,000 people, both men and women, to rush in for town lots, some on horses, others in wagons and the majority afoot, all on the line with sticks in their hands ready to stake her or his lot off as soon as the word was said. The horsemen and wagons were all mixed with those who were going to rush in on foot, and the crowd was divided, part on the north side and part on the south side of the town site. When the order was given to go both sides made for the centre, or court-house square, which is near the centre of the town, in order to get valuable lots, and when they met each other the earth trembled, but no one seemed to care who was hurt. All they wanted was to get a choice lot.

Yesterday was a beautiful September morning and the sun had risen in all his radiant glow, giving strength and courage to those who were just beginning the duties of another day. But the enchanting scene was not long destined to continue. Fiery clouds soon enveloped the bright, blue sky and a terrific thunder storm ensued. Awed by the threatening hour, the little birds ceased their songs and students gave up their text-books. There was heard an appalling clasp of thunder and the lightning broke forth in bright, terrible splendor. The noble old oaks on the campus were tossed to and fro by the wind. A terrified group of students fell on their knees in prayer to God for deliverance. Their prayers were answered for soon there were signs of a break and the Lord pacified the elements. As a result of the electric storm the air was made purer and more wholesome, for all the works of God are founded in wisdom and always answer to some benevolent purpose.

"Then fear not, though the angry sky

A thousand darts should cast,

Why should we tremble e'er to die

And be with him at last?"

W. B. W.

OTTENHEIM is still on a boom. Mr. J. Ottenthaler was here in order to make some new plans and get everything in running order by May 1st. Mr. A. A. McKinney was here this week with a lady friend. He had a bright smile on his left cheek.—The farmers are very busy making syrup; good prospect for plenty of molasses. Can put some on both sides of the corn cake.—The lumber for the new school-house is in its place. It is getting time to have it built before cold weather sets in.—Rain is badly needed; dust is three inches deep and it keeps on in this way for another month we will be obliged to put winter works in operation.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., OCTOBER 2, 1891

W. P. WALTON.

THE Massachusetts democrats renominated Gov. Russell and a full State ticket on a platform reaffirming their allegiance to the principles of the party of people as enunciated in its national platforms and denouncing the McKinley bill in vigorous terms. It also commands Gov. Russell's administration and demands further State reforms. On the question of silver, they take issue with their free coinage brethren of the West and say: "While we believe in the use of both gold and silver as money, and in the full remonetization of the latter metal by international agreement, we are equally opposed to the free and unlimited coinage of silver by our government, independent of the action of other nations, and to the dangerous silver legislation enacted at the last session of Congress." On this question the party is divided all over the country and should not have been forced to the front as a party issue. The democracy every where is united on tariff reform and upon that issue alone the next presidential canvas should be made. Abolish the higher-than-war taxes on the necessities of life and the money question will take care of itself.

The new constitution is now in force and it expressly provides that any State, district, city, town or county officer, who shall accept or use a free pass or accept transportation at lower rates than are given the general public, shall forfeit his office. We know fully a score of such officers with railroad passes in their pockets. Will they surrender them or run the risk of having their offices taken away? Most of them, we opine, will run the risk. They had almost as lief have their eye teeth extracted as to give up what they have almost become to regard as vested rights. But the free pass has to go and it is well. Railroad companies do not extend such favors except for a purpose and while the judges and Commonwealths attorneys may not feel that they have accepted a bribe in taking a pass, it is well that the law will hereafter make them avoid even the appearance of evil.

AFTER trying and condemning Public Printer E. Polk Johnson without allowing him a chance to defend himself, the con. con. clapped the climax of its rude and contemptible treatment of him by refusing, on motion of Bronston, of Lexington, to hear a respectful communication from him read in open session. We have not been able to get the Capital this week, but we learn that the colonel goes for Bronston and "the cattle" who sustained him with a vigor worthy of one who has been spitefully used without cause by men his inferiors in every respect. The whole trouble grew out of the fact that Col. Johnson did not servilely accept everything as gospel that the small men did or said.

THE Superior Court has affirmed with damages the judgment against the Louisville Truth, Editor Ben H. Ridgely and his wicked partner, Ike Dinkenspiel, for \$500 each, in favor of Will Reed, who they were charged with libeling. This is pretty tough on the boys, but Ridgely at least is all right. He has only to come up to Danville to get all the money he wants, for the nice things he has been printing about that lovely town.

DELEGATE W. R. RAMSEY, of Laurel, who enrolled the new constitution on sheep skin, is said to have done it very handsomely. He writes a splendid hand and the delegates were so proud of the work that they presented him with a silver water service and a fine gold pen. If Mr. Ramsey is ever blessed with posterity he can point them with pride to those distinguished marks of favor and esteem.

A SUPERSTITIOUS card player at Henderson dug up the body of a lady and cut the right forefinger from her hand in order to change his luck. There is perhaps nothing in the superstition, but it seems to have worked perfectly in this case, for the fellow had the good luck to be sent to jail, instead of being killed by the outraged relatives of the deceased lady.

PAT EAGAN, minister to Chili, is doing his best to get up a war between that country and this. The president should never have appointed such an adventurer to so important a position, and if he wishes to maintain the respect of the people he will send for him to come home. This country has had enough of war. Another pension list would bankrupt it.

Bro. Meacham, of the Hopkinsian, tell us whether he is "Medicated Food" ad. for M. J. dictionary? Unless for S. we will give him a J. S. in of disappoint- T. A.

ARTHUR blundering and blustering through a life of 13 months, the con. con. was strong in its ruling passion in death. It was painfully demonstrated all along that the members were tyros in grammar and the use of language, but it never occurred to anybody that they didn't know what year this is. They did not, though, as this, written at the bottom of their bantling, will show: "Done at Frankfort the twenty-eighth day of September, in the year of our Lord 1891, and in the ninety-ninth year of our Commonwealth." Every school child knows that this is the 100th year of our Commonwealth, so it will not be necessary for the noisy to reconvene to make the correction, though very many of the members wish they could be brought back to life.

WHILE \$10 a day is not big pay, it is folly to say that the governor will not be able to secure the best lawyers to revise the statutes. We do not suppose there are many better lawyers in the State than Gov. Knott and yet he has been working a year at \$5 a day "and board himself," as a member of the late unlamented. There may be \$5 a day difference in the honor, but the average lawyer wouldn't look at it in that light. We'll wager our pile that not a single man who has been mentioned for the place would decline appointment because the pay has been cut down \$5 a day.

AFTER calling the public-spirited agitators of Topeka, Kan., "short-haired creatures," the editor of the SEMI-WEEKLY INTERIOR JOURNAL had better keep clear of the Kansas capital.—Louisville Commercial. Thanks for the advice. We have no desire to get nearer to the short-haired, elderly women, with manly aspirations, than we are now. A short-haired woman and a long-haired man are usually the most disgusting people on earth.

Gov. Brown has announced as the commissioners to revise the statutes John D. Carroll, of Henry county; William C. McChord, of Washington, and James C. Sims, of Warren. The first two were members of the con. con. The latter is of the firm of Sims & Covington, Bowling Green. They are all men of fair ability, but are not the cream of the Kentucky bar by any means.

IT is so difficult to keep up with politics of Lexington that we have ceased trying to do so. All we know at present is that Maj. H. T. Duncan has withdrawn from the mayoralty race and Claude M. Johnson has shied his castor in the ring for another turn at the honors and emoluments of that office. J. H. Davidson is another candidate.

THE fact that Gov. Brown had some old cannon fired as the con. con. was in session made some of the spiteful members believe that he was glad that they were going, and they are madder than ever with him.

THE campaign in Ohio is growing red-hot. The democrats are forcing the fighting and with Campbell, Mills and other fine speakers, are giving McKinley and his crowd all and more than they want.

NEWSY NOTES.

—A colored woman was hung at Smithville, Va., for drowning her eight-year-old child. Her defense was that she could not obtain work to support herself and child. If she hadn't been a negro, it's dollars to cents that she would not have been hung.

HUBLEE.

—THOMAS SMITH will take a trip soon through Iowa. J. C. Eubanks & Bro., sold 100 barrels of corn at the crib to Tom Walker, of Lancaster, at \$3.85. Dunbar is fixing to move into a cabin in his yard till he can make other arrangements. "No place like home," Rankin & McKechnie Bros., bought about 50 miles in this vicinity at an average cost of about \$58. As we don't get the 1. J. till they are almost a week old, it is no use to gather items for its columns, as all will be heard and forgotten before our peers will be placed in its newsy form.—Mrs. Ed Miller tells us they have a hog that, when allowed to run with the cattle, sucks the milk cows dry. Jas. E. McClure, president of the bank in Montrose, Colorado, is visiting relatives here. Dan Smith is improving slowly.—Colored folks are having a protracted meeting here now.—Hanging water is the business of the day now. A dry town here sure.—It is to be hoped that the court of claims will take notice of some of our allowances, which are 5 times as large as they ought to be.—Our J. L. come by Danville and always get here a day later than formerly.—Bro. Montgomery will preach at the schoolhouse Sunday night.
